Item 1.01 Entry into a Material Definitive Agreement.

On February 24, 2011, Palatin Technologies, Inc., a Delaware corporation (the "Company"), entered into an underwriting agreement (the "Underwriting Agreement") with Roth Capital Partners, LLC, as representative of the underwriters named therein (collectively, the "Underwriters"), pursuant to which the Company agreed to sell to the Underwriters an aggregate of 23,000,000 units (each, a "Unit" and collectively, the "Units") at a public offering price of $1.00 per Unit (the "Offering"). Each Unit consists of one share of the Company's common stock, one Series A Warrant (the "Series A Warrants") to purchase 0.087 of one share of common stock at an initial exercise price of $1.00 per share and one Series B Warrant (the "Series B Warrants" and collectively with the Series A Warrants, the "Warrants") to purchase 0.913 of one share of common stock at an initial exercise price of $1.00 per share. The Underwriters will purchase the Units at a seven-percent discount of the public offering price, for an aggregate discount of $1.6 million. The Company expects that the net proceeds of the Offering will be approximately $21.1 million after deducting underwriting discounts and commissions and estimated offering expenses payable by the Company. A copy of the Underwriting Agreement is attached as Exhibit 1.1 to this Current Report on Form 8-K and is incorporated herein by reference.

The Warrants will be issued pursuant to a warrant agreement (the "Warrant Agreement") to be entered into between the Company and American Stock Transfer & Trust Company, LLC, as warrant agent. The Series A Warrants are exercisable immediately upon issuance and expire on the fifth anniversary of the date of issuance. The Series B Warrants are exercisable beginning one year and one day from the date of issuance, but only if the Company's stockholders approve an increase in the number of its authorized shares of common stock, and expire on the fifth anniversary of the date they first become exercisable. The Warrants will be issued separately from the common stock included in the Units and may be transferred separately immediately thereafter. The exercise price and number of shares of common stock issuable on exercise of the Warrants is subject to adjustment in the event of any stock split, reverse stock split, stock dividend, recapitalization, reorganization or similar transaction. The Warrants will not be listed on the NYSE Amex or any other exchange, and no trading market for the Warrants is expected to develop.

In addition, as part of their compensation in connection with the Offering, the Company will issue warrants to the Underwriters covering an aggregate of 575,000 shares of common stock, representing 2.5 percent of the total number of shares included in the Units, on substantially the same terms as the Series B Warrants being issued in the Offering.

This description of the Offering is a summary only, is not intended to be complete, and is qualified in its entirety by reference to the Underwriting Agreement, the Warrant Agreement, the Form of Series A Warrant Certificate, the Form of the Series B Warrant Certificate and the Form of Underwriter Warrant, which are filed as exhibits to this Current Report on Form 8-K or are incorporated by reference herein. The provisions of the Underwriting Agreement, including the representations and warranties contained herein, are not for the benefit of any party other than the parties thereto and are not intended to be relied upon by investors and the public. The Units are being issued pursuant to a registration statement on Form S-1 (File No. 333-170227) declared effective by the Securities and Exchange Commission (the "SEC") on February 23, 2011.
